

الشركة العمانية للغاز الطبيعي المسال ش.م.م.  
Oman LNG L.L.C.

## SECURITY POLICY

It is Oman LNG's policy to manage security risks to own and contractor personnel, property and information through a systematic process of risk identification, assessment, management, recovery and review.

### SECURITY COMMITTED:

- To strive through its industrial, public and community relations' policies and strategies to minimise the incidences of security breaches
- To work within the Omani law to identify and adopt proactive measures that protect all working for the company and its assets against identified security threats
- To ensure strict adhere to the "Use of Force" guidelines where enforcement on or within Company's property is required.
- In emergencies, to direct its response towards the protection of human life, the environment and Company assets, in that order.
- In circumstances where lives or key assets are at risk, to inform immediately the appropriate authorities.
- To protect company information from unauthorised access and to advise all who work for the Company on safeguarding confidentiality in filing, storing and communicating in any form.

### PRINCIPLES:

The principles underlying the OLNG Security management system are: -

- Compliance with all legal requirements
- Compliance with the International Ship & Port Facility Security (ISPS Code)
- Proactive engagement with our Gas Supplier, industrial neighbours and the community to ensure consistency and alignment in addressing the security of assets in the public domain vital to OLNG's operations
- Address security risks in the same manner as other critical activity in our business
- Have response procedures in place to minimise the impact of all identified security incidents or emergencies
- Understand and implement systems, procedures and practices which ensure the confidentiality of Company information
- Train all employees in Security awareness and responsibility
- Ensure contractors comply with the Company's security policy, procedures and practices
